Give Your Crops A Soileos Start

Boost yields and maximize ROI with a proven, high-impact solution that seamlessly integrates into your fertility program.

10%
Yield Increase

2024 Field Trial Results | St. Claude, MB | Canola | 78 acres

Overall Yield Boost	+	10%
ROI	+	\$110/ac
Dry, low OM soils	+	15%
High run off areas	+	8%

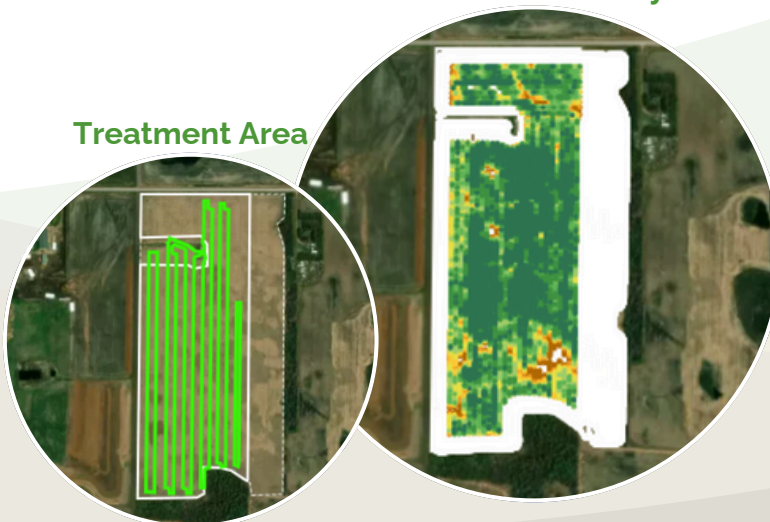

Soileos Zinc increased canola yields by 10%, adding an average of 3 bu/ac. Performance was even stronger in challenging soil conditions, with up to 15% higher yields in dry, low-organic soils and 8% increases in high-runoff areas.

“Soileos is a great fit, We did side by side trials and variable rate trials and had positive results on both.... Soileos is an environmentally sound product that works.”

— Mike Heinrich, Davidson, SK
